TAKE CHARGE
A Fully Cloud-Based System

Take Charge POS offers you a merchant solution unlike any other. Powered by the PAX Android Series, Take Charge POS is an affordable and simple-to-use point-of-sale system.

All of this is in addition to saving on your processing through the non-cash adjustment fees. Not sure how this program works? We can help! Give our team a call to learn more.

Security
EMV & PCI Compliant + employee permissions.

Reporting
Real-time terminal-centric reporting built in.

White Labeling
Rebrand Take Charge POS for your own brand.

Traditional Solutions

The power of an android terminal makes it possible for cloud-based real-time terminal-centric reporting, and other great value-added features such as an employee time clock, inventory, and modifiers + much more.
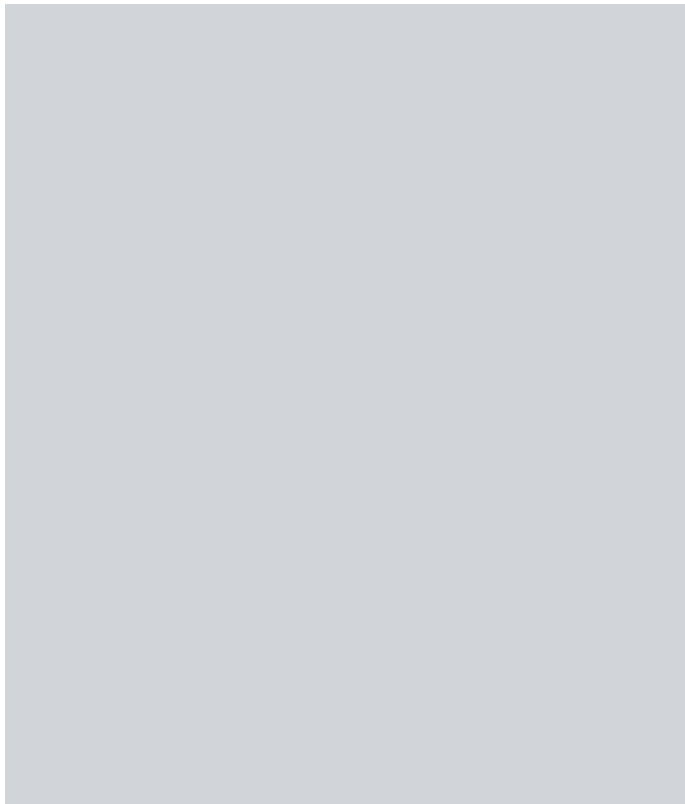

Features

- Pay Almost $0 in Processing Fees
- Employee Reporting Tools
- Edit Items via Your POS Devices
- Printer, Scanner, and More

Mobile Solutions

Take Charge is offered as a compact and portable solution via smart mobile POS devices offered by PAX Technology. With this combo, Take Charge takes go-anywhere processing to the next level.

Features

- Lightweight Devices, Easy Payments
- Various Communication Options
- Full-featured Android Devices
- IPS Touchscreens Available

PAX A80

Cost-Effective, Powerful

The most affordable model in the A-series, the PAX A80, is a revolutionary device with constant peak performance. The high-speed thermal printer matches the performance of the A80 with quick printing completed at 3.5 in/sec.

The A80 can be used as a counter-top or indoor portable solution with the use of the optional battery pack. Pair this with multiple payment types such as NFC or Apple, and you have a compact and portable solution capable of handling almost any type of payment.

Features

- Android 6.0, 7.1, 10.0
- 4-inch Touch Screen
- Printer
- 4G/3G + WIFI + Ethernet
- Camera
- Optional Battery

High-Speed Printer

Built-in printer that prints at 3.5 in/sec.

Touch Screen

High resolution 4" touchscreen display.

Android OS

Operating system powered by Android 10.
